| 8-0016-002BL-500 | 500 Watt Brushless |             |            |               |

- The images below illustrate an example of the DIY Kit assembled without any resizing (all parts to be trimmed to customer requirements).
- All sheet metal components, including the four "L" brackets and the face sheet, can be custom cut to fit your specific needs.
- Depending on your preference and available equipment, the DIY kit can be assembled using sheet metal screws, pop rivets, or welding.
